At the same speed
3 minutes stomaching

General Stomacher Power Embossing Stomacher

Touch panel type Lab Blender, LS-1250A have 50 level of paddle distance. It is more accurate before valve type Lab Blender.

Easy/Accurate Digital LCD Touch Panel

LS-1250A is an outstanding version of Lab Blender and it use 7inch Digital LCD Touch Panel. It can be used more convenient and accurate.

Upgrade Product Size

LS-1250A has more capacity than our old product. Conveniently homogenize large quantities of samples with larger sizes.

Side Lamp & 4 Color Window LED Lamp

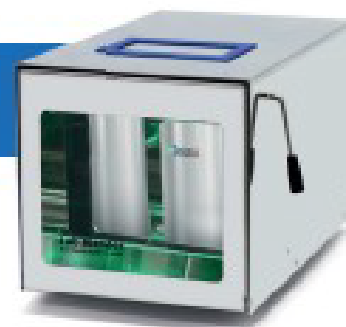

Luxury design with side lamp, 4 color window LED, Lamp helps easy to check operating status.

Timer	1sec~infinity
Blending speed	1~12 Strokes/sec, 1~10 step
Operating method	Digital LCD touch panel
Program	Depend on sample solidity (Hard, Medium, Soft) Auto program is included / Manually adjust program included
Pedal distance adjustment	Full auto digital touch (50 level)
Side & Window LED Lamp	4 color lamp alarm
Net Weight	25kg
Size	377 X 532 X 417mm
Power	Dual Volt 110V/220V/47~63Hz
Front Door	Door with angle control function/Separable and washable.
Motor	24V high performance, low noise motor
LCD Touch Panel	7inch

LED Lab Blender LS-1250A

- The world's first homogenization program
- Pedal release function
- Pedal distance fully automatic system

- Bigger and wider pedal size
- Easy door open / close

The world's first homogenization program

According to the intensity and volume of the food, three types of homogenization programs are set up.

Bigger and wider pedal size

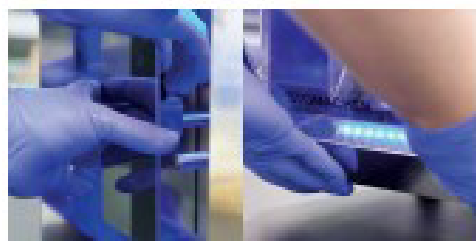

At the same speed 5 minutes stomaching

General Lab Blender Our Lab Blender

Equipped with a large stainless pedal, perfect homogenization of any food

Pedal release function

With one-touch pedal separation, it is possible to wash the pedal as well as the inside of the machine with water

Easy door open / close

It operates smoothly with little force and experiences the 4 color LED changes that change brilliantly each time it is operated.

Pedal distance fully automatic system

Experimental errors can be further reduced by digitizing and automatically controlling the homogenization intensity, time, and speed.

Timer	1 sec. to infinity
Blending Speed	1 to 12 Strokes/sec, 1 to 10 step
Operating Method	Digital LCD touch panel
Program	Depend on sample solidity (Hard, Medium, Soft) Auto program is included/Manually adjust program included
Pedal Distance Adjustment	Full auto digital touch (50 level)
Side & Window LED Lamp	4 color lamp alarm
